

Call for the Platform of Ascended Master Principles

Written by chelas in response to a call from Saint Germain and the Goddess of Liberty
Our best understanding of how to apply the teachings to challenges in the world today

The Goddess of Liberty has instructed me to tell you that this body should write its own platform on the issues. She has told me, together with Saint Germain,... that if we desire the alchemy of change we must write the alchemy of change.... We must write in a one or two page statement what it is we want to have happen with our economy,... how we see this being implemented without the very collapse of the economy in the process; what we desire to see happen in education; in our federal government, with more power being returned to the states and to the people; what we want to see in taxation; what safeguards against the erosion of the middle class; what we want to see on monopolies, big corporations, taxation. We need to have a platform that we decree for instead of candidates that we decree for. We need to set forth our own platform and decree for candidates to take up that platform.

—Elizabeth Clare Prophet, 10 October 1979

In the name of my mighty I AM Presence and Holy Christ Self, I call for the protection and cutting free of candidates running for elective office to take up a platform based on ascended master principles and the divine blueprint for government of the people, by the people and for the people, including the following:

Founding Principles

- ✓ The concept of self-government in freedom and liberty, and “the path of initiation that is enshrined ... in the Declaration of Independence and the Constitution of the United States of America;”¹
- ✓ Defense of the four sacred freedoms: freedom of religion, speech, press and assembly.
- ✓ Defense of our national heritage that acknowledges God and devotion to his principles in public life.
- ✓ Limits on governmental power enshrined in the Constitution to be respected and defended.

National Integrity

- ✓ Our borders sealed and protected against entry by all enemies of freedom, illegal aliens, child trafficking and drug trafficking.
- ✓ Immigration laws that allow those who are intended to immigrate to America—who want to become Americans and contribute to the nation—to do so legally, and enforcement of those laws.
- ✓ Protection of the freedom, sovereignty and divine destiny of every nation and an end to support of international organizations and NGOs that seek to undermine these principles.

Foreign Policy

- ✓ Withdrawal from entangling foreign alliances, abandoning the agenda of globalism until people of their own free will tear down the barriers that separate them.²
- ✓ Greater support by governments and private foundations for cultural exchange programs and “the free exchange of young people in schools, universities, and working situations throughout the globe.”³
- ✓ A principled foreign policy that defends America’s highest interests, respects the sacred rights of all nations, and promotes peace and freedom around the world.
- ✓ Ending of financial, technological and political aid to those nations and organizations that oppose Saint Germain’s plan for freedom.
- ✓ The defense of the freedom of Taiwan.⁴

Family

We decree that this platform—adjusted and perfected according to the holy will of God—shall be espoused and enacted by all candidates and leaders, for the transformation of the governments of the United States and the world into the higher patterns of Aquarius. Amen!
