

Elementals and the Protection of Mater

Prayer on Behalf of the Gnomes

In the name of my mighty I AM Presence and Holy Christ Self, I call to the gnome assigned to me as my personal assistant to give me Virgo and Pelleur's direction for what needs to be accomplished for the continuity of life on earth.

Beloved Arcturus and Victoria, free the gnomes from the burden of man's inhumanity to man and to elemental life! Free the gnomes from the strident discord of mankind's warring—warring amongst peoples and each individual's own warring in the members.

Beloved Omri-Tas, send oceans of violet flame from the violet-flame sea in the center of the earth to transmute all pollution burdening the earth body. Clear all toxic wastes, industrial effluvia, nuclear radiation and all that impedes the Spirit-Matter interchange of divine energies. I call for the enforcement of proper waste disposal in all industries, including auto manufacture; chemical processing and manufacturing; electrical utilities; electronics; forest products; health care products; metal finishing, fabrication and use; oil and petroleum; pharmaceuticals; and printing.

In the abundant life of Virgo and Pelleur, I trust! (3x)

Prayer on Behalf of the Sylphs

In the name of my mighty I AM Presence and Holy Christ Self, I call to beloved Helios and Vesta to purify the atmosphere and to aerate the mind and heart and every cell of life. Intensify the prana of the Holy Spirit that is the very life breath of the soul. Let it heal the sylphs and all life on earth! Let the air become the distilled consciousness of the sylphs!

Angels of Zadkiel and Holy Amethyst, clear all pollution of the air in the major cities and other areas of the world before it can pollute the water and the earth. Beloved Saint Germain, release the inventions necessary to rid the air of car exhaust, toxic fumes from factories, and other industrial processes. I call for the freeing of all sylphs from hate and hate creation generated by the ungodly and the ignorant. Cut free the sylphs from these forcefields before they are outpictured in violent storms, cyclones and tornadoes.

In the sacred fire breath of Aries and Thor, I trust! (3x)

Prayer on Behalf of the Undines

In the name of my mighty I AM Presence and Holy Christ Self, I call to Saint Germain and legions of violet-flame angels to transmute the collective unconscious of mankind. Transmute all darkness, disease and death that pollute the emotional bodies of humanity and the waters of planet Earth.

Restore the natural flow of Spirit's fire to the seas. Lighten the weight of the astral plane borne by the undines. And protect the precious whales so that they may continue to transmit cosmic light and cosmic rays to all life on earth.

Transmute all effluents from factories, refineries and waste treatment plants; non-effluent industrial wastes, fertilizers, pesticides and oil; all gaseous emissions from cars and factories that pollute the waters when they are brought to earth by rain. Restore unbalanced river and lake ecosystems that can no longer support full biological diversity. Reverse the damage of forests through acid rain. I call especially for the purification of the drinking water of earth to maintain the balance of the water element in the bodies of mankind.

In the purifying waters of Neptune and Luara, I trust! (3x)

Prayer on Behalf of the Salamanders

In the name of my mighty I AM Presence and Holy Christ Self, I call to Archangel Michael and Mighty Astrea to cut free the fiery salamanders imprisoned through black magic, witchcraft and satanic rite. *Bind* the demonic forces of the astral plane, all spells of death and destruction and all hexes used to enslave the elementals!

I call forth the violet flame to consume all radioactive substances that have burdened the salamanders and the earth through irresponsible uses of nuclear energy.

Oromasis and Diana, take command of the fiery salamanders and contain all uncontrolled, destructive fires. In the name of the Christ, I command the elementals to bring such fires under God-control.

In the name of the Christ, I ask beloved Helios and Vesta to draw the salamanders up into the Great Central Sun Magnet for repolarization and realignment with God's holy will.

In the rainbow fires of Oromasis and Diana, I trust! (3x)

Prayer on Behalf of all Elementals

In the name of my mighty I AM Presence and Holy Christ Self, I call to the Great Divine Director to arrest the spirals of human infamy that have imprisoned elementals in lower forms. Let the elementals be cleared by the combined alchemy of the resurrection flame and the violet flame.

Beloved Shiva, come forth now and break all curses and all negative images that have ever been placed upon my personal body elemental and the body elementals of all mankind, preventing them from acting in our defense!
Shiva! Shiva! Shiva!

I call for the transmutation of all burdens upon elemental life due to human discord and selfishness that manifests at every level of being.

Beloved Cyclopea, give to every elemental the divine image and the divine vision of the golden age, the City Foursquare and the Temple Beautiful so that every elemental can hold the matrix for perfect form on earth. Let the earth be sealed in the emerald matrix and the healing thoughtform.

In the purple fiery heart of Saint Germain, I trust! (3x)
