

INSERT FOR DECREES TO ASTREA

Encircle all influence and infiltration by the fallen angels and the godless in America, in all educational systems, and on every college and university campus in America and the world: Encircle every lifestream and elemental, the suicide entity, Annihla; all focuses, masks and masquerades thereof; all malicious, ignorant, sympathetic, and delicious animal magnetism exerting pressure thereto. All self-destructive and soul-destructive tendencies, death entities, the will to fail, the death wish, loss of motivation; and the will to be, to live, to create, and to care; all mass entities, floating grids, forcefields, pockets of suicide, records on the astral plane, the record of the original spiritual suicide of the fallen angels; all societal fascinations with, phobias of, and fixations on death and dying, the anti-God cults of atheism, nihilism, existentialism, self-annihilation, self-deliverance, and their glorification in the media, TV, MTV, rock video, drugs and sugar.

Encircle all criticism, condemnation, and judgment of the ascended masters, the Messengers and their teachings; all carnal chattering, religious bigotry, gossip, gossip entities, and misinformation concerning ascended master law; all lying entities, psychic riptides, black magic, and witchcraft directed against the light, freedom and illumination of all mankind with their causes and cores.
