

Violet Flame Invocation to Consume Records of Lemuria

In the name of the Christ, in the name of the I AM THAT I AM, we call to beloved Alpha and Omega, Buddha of the Ruby Ray, beloved Peace and Aloha, beloved Ra Mu, Surya and Cuzco, Saint Germain, OmriTas and the 144,000 priests and priestesses from the Violet Planet, come forth for the scouring of the coasts of North America. We call for the fire of the Ruby Ray into the records behind the sinking of Lemuria. We call for violet flame to be injected into the Pacific Rim, to go to the very depths of the sea for the consuming of the records of the murder of the Divine Mother on Lemuria. We call for this cleansing that is necessary for the balance of the coasts and of the planetary systems as well.

We invoke extraordinary dispensations from the Lords of Karma that we might right the wrongs of these civilizations. We invoke legions of the seventh Ray and the Holy Kumaras. *Blaze* the light of Almighty God into the record of the conspiracy of fallen angels who determined to pull the children of Light from the love of the Mother! *Blaze the light through!* Consume the cause and core of their plot of rebellion against the light of the Mother and the perversion of the sacred fire through misuse of sound, rhythm, and the Word. Consume the cause and core of the desecration of the altars through sensuality and sexual perversion. Consume the record of Lucifer and the seed of Satan who hatched the plot to murder the representative of the Divine Mother and the record of the murder itself.

We call for the conflagration of violet fire into the record of the participation or consent of our souls and all souls of light in these desecrations of the Mother Light. We call upon the law of forgiveness for not defending the Mother Light and the representative of the Divine Mother.

Beloved Saint Germain and beloved Kuan Yin, we implore mercy's flame to cleanse all grief, guilt, fear and sense of loss connected with these records from our lifestreams. We seek resolution to these events through Divine Love on the 360 degrees of the clock.

Beloved Cyclopea and Virginia, Elohim of God, transmute the cause and core of all tactics of subconscious programming of the four lower bodies of the Lightbearers. Encircle the wedges of rebellion and greed that were placed there. Encircle all black magic ever practiced against us and all Lightbearers. Encircle the core of the allure of the fallen ones, their glamour and our idolatry of them. Beloved Surya and Cuzco, we call for the action of the Mighty Blue Eagle for the stripping of the records of the fall of Lemuria which fell through selfishness that became wickedness and the perversion of God through Satanism.

Strip us of all selfishness and replace it with the sacred qualities of the Ruby Cross: sacrifice, surrender, selflessness and service. We would be pillars in the earth to provide a stabilization for many millions of souls—levels upon levels of souls who cannot move on until the records of Lemuria have been transmuted.

We keep the flame upon the altar of the temple of the heart and we offer our Causal Body to hold the balance for the victory of the Aquarian Age. We call for the sealing of the light of our Causal Body, that no one in any octave of the Matter spheres, worlds without end, may ever requalify that light. Let it be sealed in the mighty blue sphere of cosmos! I AM the guard of my own purity, harmony, and victory, and do not descend to lesser manifestations.
