The Gift of the Ascension Chair

SANAT KUMARA'S DISPENSATION
3% of the Energy of the Atomic Accelerator

I

ASCENSION CHAIR The Gift of the 'Atomic Accelerator'

Leader:

*The ascension chair resides in the Royal Teton Retreat, as well as in the Great Divine Director's retreat in India. It was also used on Atlantis.... There are replicas elsewhere.... The I AM Temple supposedly has a replica in downtown Chicago. Ascended Master Daniel Rayborn released a dispensation for a **one-percent** radiation of the atomic accelerator to be anchored in a chair at a conference in Washington DC in 1963.*

*In 1968, Sanat Kumara and Lady Venus secured a dispensation upon which this ritual is based. They told us, "**three-percent** of the energy of the atomic accelerator can be given **permanently** to every lifestream who has made the call and has the faith. And we are going to invoke it in the very chair in which you sit so that the power of that flame will pass up through your flesh form, through your finer vehicles and enter into your consciousness, so long as you keep the Covenant of Asha [which is the Zoroastrian commitment to live in righteousness and purity]...."*

CONSECRATION PRAYER For the Dedication of Your Ascension Chair

Leader:

If possible, set aside a chair that is used only during your meditations and invocations. Ask the Ascended Masters to establish a focus of their sacred hearts within the forcefield that your ascension chair resides. Consecrate this chair and its surrounding forcefield by the momentum of your heart flame as a focus of the atomic accelerator used by the ascended masters in their retreats. This chair can be anointed with Holy Oil or Rosewater. Also, crystals or gems stones can be placed on it....

Let us pray for this consecration of your chair... together:

We call to the ascended masters who guard the light of purity in the twelve altars of Lemuria. We call for the full-gathered momentum of the ascension flame of all who have ascended from this evolution.

We call for the great white light of the Ancient of Days, LORD Sanat Kumara, Lady Venus. We bow before their mighty threefold majestic light of purity and the Father Purity and the Son Purity and the Holy Ghost and purity in the Mother flame of the ascension.

Today we come before you, to dedicate to your lasting service this chair, that we desire to be consecrated in service to the Light, consecrated for our return home through the path of the ascension. Let this chair be blessed and dedicated to purity so we might be drawn ever more deeply into your presence.

In the name of the light to whose purpose we have come, we renew our dedication upon the altar of God, and vow to keep the covenant of Asha, the covenant of purity, from this day forward.

Blessed Father, we praise and glorify your name, I AM THAT I AM. Amen.

THE PETITON—TO THE ANCIENT OF DAYS

Invoking the Dispensation of 3% of the Energy of the Atomic Accelerator

Leader:

We will now petition Sanat Kumara for this energy of the atomic accelerator. For your future use of this dispensation, the bolded paragraph can be used DAILY to reactivate this gift in your consecrated chair, if you so desire. Let us invoke this sacred opportunity, one that we ought NOT take lightly or forget.... Together:

In the name I AM THAT I AM, I invoke the tangible presence of the Ancient of Days, the Seven Holy Kumaras, Mighty Victory, Archangel Gabriel, God and Goddess Meru, Holy Justinius, the Great Divine Director, Saint Germain, Godfre, Serapis Bey, Amen Bey, Ascended Lady Master Clara Louise, Lady Kristine, Leto, Alexander Gaylord, Daniel Rayborn, Rex and Nada, Bob and Pearl, Lord Maha Chohan, Zarathustra, the Great Karmic Board, Guru Ma, Lanello, and all great beings, powers and legions of Light.

Beloved Sanat Kumara and Lady Master Venus, under the direction of my Holy Christ Self, reactivate your dispensation and the full 100% release of your Light that was delivered by the Messengers of the Great White Brotherhood, Mark L. Prophet and Elizabeth Clare Prophet, on July 6, 1968, at the Freedom Class held at La Tourelle in Colorado Springs, whereby three-percent of the energy of the atomic accelerator was given permanently to every lifestream who has made the call and has the faith. Sanat Kumara, release the energy now into our chairs! Let the power of the flame surge through us as the purifying flame, the movement of the sacred fire. I call to my own beloved God Presence I AM in me for this dispensation to be activated within my world today.

Beloved God Presence, I AM in me, do Thou for me all that this moment permits. Raise now the vibratory rate of the atoms and atomic structure of my body to the highest level I AM able to receive. Release me from the drag of the senses and the pull of my karma from times past, and from the mass effluvia of mankind currently released into the atmosphere. Do Thou this thing for me!

Pass through my physical form the power of the Sacred Fire that was held of old in the hearts of Shadrach, Meshach and Abednego. I AM refired in the kiln of the Mind of God—truly reborn in body, soul and spirit, in mind and heart, truly reborn in that rebirth that is the key to the expansion of the light and the teaching of the Ascended Masters.

Raise the vibratory action of my atoms and electrons by the power of the Universal Christ! Pass now the threefold flame through this room from the sacred urn upon Venus!

Amplify the power ray to **do the will** of God! Step it up.

Amplify the illumination ray to **know the will** of God! Step it up.

Amplify the love ray to **be the love** of God! Step it up.

In the name of Sanat Kumara, Threefold Flame, arise, pulsate and spin with the frequency of the ascension flame!

Let the ascension flame spiral through the atoms, cells, and molecules of sheath upon sheath of my outer and inner consciousness! Prepare me for the ritual of consummate love whereby my soul is wed to Spirit in the ascension.

Praise the LORD I AM THAT I AM for this grace of the Lord whereby our words and works are stepped up! up! up! beyond the earthly orbit and laws of atomic weight, density, and gravitation, until my soul is 'free floating' in the octaves of Spirit.

Release the resurgent energies of Christ-accomplishment to be magnified! Direct a beam of light-substance to pass through the chair in which I am sitting. Anchor this light-substance in this chair and energize it for the space of one hour for the action of the 3% of radiation from the atomic accelerator.

Pass the flame through this very chair in which I sit so that the power of that flame will pass up through my flesh form, through my finer vehicles and enter into my consciousness! Give me a release from the subtleties of mortal thought and feeling! Permit me to comprehend the reality of my God-tie—not only now but for all time to come—so long as I shall not break the Covenant of Asha, of Purity.

I vow to keep this covenant that proceeds from my heart to the heart of God as a blazing pathway of light that saith unto the Father:

Not my will but thine be done! I am thy child, O God. I walk here below as a pilgrim. I seek to manifest thy love wherever I may go. There is no stain or permanent pain or aught that nips in the bud the manifestation of thyself and thy transcendent love. Through all time and space, I move to see thy radiant form. Thy being is a flash of love and in me it is born. Be reborn, O Love of God! Be born again!

Sanat Kumara, ready the grids. Ready the triad and place the forcefield. I still now my mind. I think no longer of the self and its outer affiliations, nor of any sense of struggle, any feeling of shadow or darkness. All is light! Beloved Sanat Kumara, enter this chamber and begin to increase the light of the spiritual power of God within these rooms!

Light, increase! (4x)

Light! (40x)

Light, increase! (7x)

Sanat Kumara, release the energy now into my chair! Let the power of the flame surge through us as the purifying flame, the movement of the sacred fire. As an eraser passes across the board and removes from that board the forms drawn thereupon, causing the chalk to enter into the eraser, so let me now magnetize and draw from the spinal altar all dark substance that requires transmutation.

Saint Germain, increase this action now by the violet transmuting flame! Turn on more of the violet transmuting flame and pour it through!

It is done! (3x)

Light, increase! (4x)

Light! (40x)

Light, increase! (4x)

Angels of infinite love, pour thy substance through my flesh form! Wash, cleanse, and remove the shadows! Flame of illumination from the God and Goddess Meru at Lake Titicaca, blaze through our minds the purifying power of the violet transmuting flame—violet and gold!

Violet and gold, increase! (7x)

Let the substance of the divine essence flow over the pia mater and the dura mater!

Angels of the Sacred Fire, place thy hands, now, upon the heads of receptive individuals and let this flow now remove the cause, effect, record and memory of all fear and fear substance, shadow and resistance to the acceptance of the perfection and purity of the Law.

Raise up the evolutions of our earth. Reach down into their human consciousness with all of its density, with all of its suffocating conditions, and put their feet firmly on the path of the ascension, their road home to God.

I AM the law of Love performing an act of eternal life for the children of men.

I AM the law of Life performing this service for the children of men.

I AM the law of Love performing this service for the children of men.

I AM the law of Wisdom performing this service for the children of men.

Angels of the sacred fire, bear these tidings of great joy to all people throughout the world in the holy name of freedom.

Let this action be sealed in the ruby cross and the flame of the Ruby Buddha. Amen.

A GUIDED MEDITATION AND VISUALIZATION

An Encounter with the Ascension Flame

~ [Optional Section] ~

Leader

The Masters have told us that we will not ascend in an earthly body but in a glorified spiritual body... changed in the twinkling of eye, by total immersion in the great God flame. Now... we prepare for the ritual of consummate love, for that future time and date known by your I AM Presence, whereby your soul is wed to Spirit in the actual ascension.

Close your eyes... begin to meditate on this great God flame... take a deep breath, slowly inhaling and purposefully exhaling... centering in that secret place, the cathedral in your heart... see the golden Light of the atomic accelerator surrounding you... its pulsating Light begins to increase in intensity, in vibrational frequency... and you begin, in a very real way, to experience your own frequency, the vibrational rate of your four lower bodies, being stepped up by the atomic accelerator... you can feel the quickening... you watch the ascension flame spiral through atoms, cells, and molecules of sheath upon sheath of your outer and inner consciousness... feel it raising your energy gradually, transforming the impurities in your physical body as they are thrown off and consumed by the ascension flame.

Now... feel, see the metamorphosis taking place... See your flesh begin to appear perfectly transparent.... See the blood in your veins change to liquid golden light.... See your throat chakra glow with an intense blue-white light.... See your eyes, no matter what color they currently are, become a beautiful pale violet.... See the spiritual eye in the center of your forehead become an elongated God flame rising upward.... Watch as the long hair of the Higher Mental Body, your Holy Christ Self, appears as pure gold on your head....

Feel deeply... this most marvelous radiant energy surge in and through you, sweeping away every vestige of resistance and imperfection, and quickening your consciousness... Sense a new equilibrium in the brain structure, giving you perfect balance in the mental and emotional activities of your being...

Step outside of yourself for a moment... witness your entire appearance merge with the white light, as you become clothed in a white robe—the seamless garment of the Christ.

As the atomic accelerator continues the ramping up of our energies... You start to feel a very different relationship to gravity... you become aware of a state of weightlessness. Lighter and lighter grows your physical form, and with the weightlessness of helium, you perceive your body rising into the atmosphere....

The energies of the accelerator continue to whirl and whirl, whirling at such a high frequency... that in an instant, there It is... standing before you... your Mighty I AM Presence.... In all its visible, tangible, and very, real glory!

Experience oneness with your I AM Presence... as your physical body is drawn into and enveloped by your glorious God-Self, until, all of a sudden, you realize how transcendent you have become. The old human with its limited activities of consciousness exist no more... you are raised into that alert sense of freedom, and unlimited use of wisdom and power.... you are now in union with highest level of cosmic existence.

What an immensity... Perceive the Great Silence in all dimensions of universal being.... You gain new awareness of regions of the cosmos which up to that moment you had not even conceived of....

As your field of consciousness expands, feel the wonderful kinship with minds and hearts, a reunion with those ascended from whom you have long been absent.... Without even a thought you feel the presence of Lanello, Guru Ma, El Morya, Saint Germain, Ascended Ones from The Summit, The I AM, and many others known and unknown.... As you continue this communion with the infinite, the desire may come upon you... that you might want to know more of the Ascended Masters who have so lovingly ministered to you... If this is the case, then desire it in your heart, now.... And you see instantly, one after another of these great Masters standing before you....

It is so amazing that without a word being spoken, they convey their names and thoughts to you....

Words seem insignificant now... and most likely will never describe the marvels of this experience... and, maybe, for the first time in your life, you are beginning to know, to experience the real meaning of life eternal, life everlasting....

You now know, understand in this instant... that nothing in this world could compare to the ascension.

You are Brahman... Brahman thou art... Tat Tvam Asi...

Say it with me:

TAT TVAM ASI (5x)

... [pause]...

As our experiment comes to an end, and the atomic accelerator winds down.... The light within the chair gradually disappears, and the room and forcefield around you is again as usual...

Your hair gradually returns to its natural color.... However, your face retains its radiant and youthful look... Your eyes shine with a brilliance as never before.... You retain a certain portion of the sacred fire that is yours to hold onto as long as you remain in purity....

... [pause]...

THE SEALING OF THE ENERGIES

Praise the LORD I AM THAT I AM Sanat Kumara!

Leader:

Let us invoke the presence of the Holy Kumaras to seal us and our earth... Together:

LORD Sanat Kumara, seal thy Spirit in my heart, as I stand in the earth, ready as a receptacle, as the feminine polarity, ready for the descent of the light of the Almighty, even my own Individualized I AM Presence.

Release the Great Sphere of Universal Being, the seven rings of light of the Causal Body of the Allness of God until Its Radiance comes through my flesh, illumines everything I contact, and keeps me eternally sustained! In flame my spinal altar with the fire of Thy Ascension Current, that I may serve Thee with a pure body, and please Thee with a clean heart.

I joyously accept the fullness of the Mighty God Presence - the Pure Christ.

I AM a Child of the Light - I love the Light - I serve the Light - I live in the Light - I AM protected, illumined, supplied, sustained by the Light....

And I bless the Light.

Holy Kumaras, let every erg of energy invoked by us be sealed by God, let it be used for the multiplication of the God consciousness, the Christ consciousness and the presence of the Holy Spirit in all people of Light upon earth.

Praise the LORD I AM THAT I AM Sanat Kumara!

Purusha.... Amen.
