

In the name of my I AM Presence and Holy Christ self, and the I AM Presence and Holy Christ selves of those who are also making this call and those who agree with this call at inner levels including *<say the name(s) of the others making this call with you it requires at least one other person giving it with you--even over the phone--for it to work>* we agree together in the name of Jesus Christ that the Will of God be made manifest for:

The mitigation and cleanup of the disaster at the Fukushima Daiichi and Daini nuclear power complexes, and all other disasters including Chernobyl and Three Mile Island, the ongoing illegal use of depleted uranium munitions and all releases of radiation and radioactive materials into the four lower bodies of mankind and the planet. We agree together for the Violet flame sea and the Electronic Presence of the Violet Planet to consume the causes and core of the records – cause effect and memory of the energies associated with these disasters.

We agree together for the binding of the pride and ego of the members of Japanese and American governments, Tokyo Electric Power Company TEPCO officers and employees and others blocking the truth, and that the individuals, materials, knowledge and necessary intervention from multinational sources and the angelic and Ascended Master realms come forth to correct this problem and to restore balance to the air, the earth, and the sea as well as the four lower bodies of the planet.

We agree together for absolute God-Control over this disaster, including a miracle from the Purple Fiery Heart of Saint Germain and Beloved Mighty Portia to extinguish the radioactive fission fires beneath the earth, of the three or more nuclear reactors which have breached their containment and melted-down, also known as China Syndrome.

We agree together for a miracle, for the cooling of the nuclear fires to arrest any feedback loop, especially between the two facilities, which would cause nuclear materials in and around these facilities to reach critical mass and begin to burn.

We agree together for the binding and removal of every manifestation of Wormwood and any other demons, beasts or entities associated with this and all disasters.

We agree together for the absolute God solution to come forth for the mitigation and cleanup of this disaster, the safe recovery and storage of all radioactive materials and the

transmutation by the violet flame of radiation in all its forms: we supplicate, command, demand and see now instantaneously manifest: the Perfect Array of Miracles required for the absolute healing of this entire situation, cause, effect record and memory.

We agree together for the protection of the Lightbearers, all cetaceans and elemental life, the ocean and all its inhabitants from radioactive materials and radiation in all its forms, especially from releases of radioactive material into the environment.

We agree together for the mitigation, transmutation and purification of all life, all food and food-chains and all spirals of bioamplification and bioaccumulation worldwide.

We agree together for the immediate cleanup of this situation and guidance for those who are helping in the cleanup effort, and for all those who are standing in the way of the God solution coming forth to now step aside and allow this situation to be resolved.

We agree together for the cutting through of all blocks and pride and ego which are: keeping the entire community needed to correct this situation from coming together, keeping the truth from the people who are need to respond and keeping the US and Japanese citizens and other nations in the dark about what is really going on, the severity of the issues, and the continuing dangers.

Therefore, we agree together for the shattering of the veils of secrecy about the scope of this disaster and what is necessary to clean this up, that the citizens of the US and Japan and the world are appropriately informed about the continuing dangers and the scope of this problem and react with what is necessary to fix this, including the immediate release and implementation of all suppressed and golden age technologies relevant to the recovery from this disaster. That the world community no longer tolerate the blockage of truth and immediately demand and take action to solve this matter now. We agree together for the absolute God solution to come forth now and for the Ascended Masters to take full command of what is needed to solve this on all planes of existence and anything else that is needed for the solution of this ongoing crisis including but not limited to the following agreements.

We agree together for the continuous invocation, overshadowing and God-Control over these two facilities by geometric arrays of elementals, angel devas and mighty angels together with Ascended Masters, Archangels, Elohim, Cosmic Beings and the Electronic

Presence of Beloved Alpha and Omega, the Great Central Sun and the Entire Spirit of the Great White Brotherhood:

We agree together for the following manifestations:

- All fission fires at Fukushima Daiichi and Daini to be infused with the violet flame, and either be extinguished; or intensified and sequenced by the violet flame to alchemically burn as cleanly as possible, consuming, transubstantiating and transmuting all radioactive materials into inert, non-radioactive matter, including the maximum possible acceleration of the radioactive decay of every known and unknown isotope by the violet flame together with the power and maximum intensity of the rays from the sun of Beloved Helios and Vesta which have also been accelerating radioactive decay.
- The complete God-Victory, and all miracles necessary for the worldwide resolution of this situation, and the absolute elimination of any possibility of future nuclear disaster by the absolute eradication of this entire evil industry from the earth.
- The protection of and the unburdening of elemental life.
- The protection and purification of all ground waters and underground water repositories and the restoration of life and balance to the Pacific ocean and other waters and lands affected by this disaster.
- The binding of all lack of response from the world community and for those that are blocking appropriate responses to now step aside to insure the cleanup effort is victorious.
- The guidance and direction of our spiritual work for the unfolding of the steps needed to Reverse the Tide! of this situation and heal the planet of radioactive contamination and for all necessary miracles to come forth!
- The cutting free of all Lightbearers to recognize the urgency of the situation and the best prioritization of our time and spiritual resources and focus.
- The protection of this planet, the Lightbearers, elemental life and others as God would allow from all harm from this disaster.
- The immediate Divine and human intervention in this situation and that this crisis be resolved forthwith.
- The exposure of all sabotage that has taken place in this disaster including sabotage by nuclear devices, computer hacking and all actions designed to create and amplify these disasters and bringing those responsible for this to justice.

- The exposure of additional disasters that are being covered up by the media and governments.
- The creation and sustaining of the focus of Divine Healing Merkabas centered on both Fukushima Daiichi and Daini reactor complexes extending deeply into the earth and into the air above, including the ten damaged reactors and eleven damaged spent-fuel pools, sustaining the Energies of God including Toruses of Violet Flame like the magnetic fields depicted around a magnet, like a doughnut laying on its side, one centered on each reactor complex. Let the violet flame continuously circulate upward from the center, outward over the top, down the outside and back to the center of each Torus according to the Alchemical Action of Saint Germain's Maltese Cross and any other thought forms and manifestations for both complexes, the air, the sea and the land.
- The exposure and judgement of those who seek to cover-up the danger of radiation poisoning in the food and water, such as governments and agencies passing legislation or raising tolerance levels to dangerous levels thereby allowing cancers to develop in the people from contaminated food and water, and escaping blame because of the delayed effects of cancer and other illnesses.
- The Immaculate Concept be put in place in all areas required for the containment and stabilization of all radioactive materials and the cleanup and of this entire disaster, cause, effect record and memory.
- The protection of these sites from further damage including fire, storms, tsunamis, earthquakes, sabotage, or any other event that will keep the solution from being implemented now.
- The healing of every beloved person, creature and plant at risk from this or any other contamination--especially food and drinking water, including every form of cancer or any other disease, worlds without end..
- All dispensations to come forth from the Ascended Masters as needed and for new ones that will solve these problems--all this or something better dear LORD!

Cut free the Lightbearers and all life from mass consciousness fears, aggressive mental suggestion and all fatalism, apathy and all sense of defeat or doom regarding this crisis and open them to the higher consciousness needed to bring this solution under control.

We agree together for the protection of the Light bearers from these energies at inner and outer levels. Cut us free from the energies affecting us at inner and outer levels and let us see the response from the hierarchs of heaven for the correction of this issue now.

We agree together for the clearing of the astral plane of all not of the Christ preventing these issues from being resolved or which are hindering the cleanup efforts.

We agree together that anything the Ascended Masters need including dispensations and grants of energy be made available without limit. We agree together for the absolute God solution to come forth for the cleanup and rendering impotent of all harmful radiation and secondary effects.

We agree together for the protection and transmutation of radiation in the oceans, the air and on land including Japan and the United States and all places in the northern and southern hemispheres contaminated with radioactive materials including all use of depleted uranium munitions worldwide, Chernobyl, Three Mile Island and all other nuclear releases including the abomination of nuclear weapons testing, nuclear mining, processing and enrichment, nuclear weapon and nuclear fuel manufacturing, nuclear power plants and all spent fuel and radioactive material storage facilities worldwide, and the absolute binding, judgment and elimination of all nuclear weapons use including in Gaza and Yemen, and every being involved in nuclear weapons deployment.

We agree together for the absolute God protection of all Lightbearers on all planes of consciousness from the karma and energies not of the Christ of this disaster and those in the cleanup efforts from exposure, accidents and anything else which could be a problem. We agree together for the infusing of the consciousness of all with the sense of God-Victory over these conditions.

We agree together for the protection of food and water supplies and where situations must happen that those that God wishes to protect will be protected. We agree together to be shown the power and effect of these calls and that we be guided in ways that we cannot ignore for the saving of our planet and the maximum help and assistance we may receive for the staying of these situations. We agree together for the violet transmuting flame to consume the causes and cores of these conditions and to correct all that is not of the light.

And we ask that no light be given unlawfully to any part of life where there is not the commitment unto the soul's salvation unto the worship of her God. We also agree together for the absolute God protection from the backlash and lash-back by the forces of darkness to this call and the subsequent release of Light into these situations. We ask for the cloak of invisibility, invincibility and invulnerability, and every dispensation of protection to be upon us, our loved ones and those to whom we are karmically tied, especially where the forces of darkness are concerned. Let this call be adjusted according to God's Holy Will, nevertheless, not our will but thine be done. AMEN."
