

Beloved Gautama Buddha, Lord of the World, we welcome you to this city. We are your devotees and the bearers of your lamp.

Beloved Gautama Buddha, deliberate with these individuals. I ask you to bring them to their highest point of God-realization and then to transcend that point and to manifest a divine decision that will be for the reversing of the tide, the turning of the tide, in world events, that will have the wisdom of Solomon and his great causal body, the grace of the Almighty Father, that will truly expose the terrorists before the entire world body, curtail their activities upon this planet, stomp them in the true fashion of Lord Shiva and his Shakti.

Beloved Lord God Almighty, we demand the absolute God-control of our leaders in this hour! We demand their God-realization and the exposure by Cyclopea of the malintent of this event—its past, present, and future—where it came from, where it is going, and the entire reasoning of the warped psychology of the terrorist mind in taking this action.

*We demand* the mighty sacred fire from Sanat Kumara! We turn this government over to beloved El Morya and all who are with him and above him, back to the heart of Sanat Kumara.

We are the citizens of the United States of America. We are the citizens of a cosmos, of the God Star. We are the children of the Sun. We command the destiny of this planet, in the name of Almighty God, and we demand in this hour, as never before, the mighty reapers to enter and bind the tares sown among the wheat, even in the consciousness of the good people, that those tares of wrong reasoning, misunderstanding, doubt and fear—all seeds sown by the fallen ones, especially genetic manipulation, preventing them from their heart tie to God—be bound and removed by these angels of living sacred fire.

Angels of Almighty God, you are equal to the task as God is equal to it, and you are his instruments. We summon you to save this planet! save this nation! Open the way for the divine plan of souls of Light! Let us be secure in the education we give our children, in their upbringing, in bringing in souls of Light, and in our families.
