

Bind the Anger of the Fallen Ones

In the name I AM THAT I AM, Beloved Father Mother God, bind the forces of anger out of the pits of death and hell and their origin in the anger and rebellion of the fallen ones and their mechanization man. We call to the Buddha of the Ruby Ray and all beings of the Ruby Ray for a planetary exorcism of anger in all of its manifestations and modes that have been inflicted upon the children of the light. Clear all condemnation, hatred, doubt, fear, pride, disobedience, all Martian and moon energies and sunspot activity creating war, aggression, anger, arrogance, argumentation, accusation, agitation, apathy, atheism, annihilation, aggravation, annoyance, aggressive mental suggestion, and all moon substance; anti-Americanism, anti-Father, anti-Mother, anti-Buddha, anti-Christ, and anti-Holy Spirit manifestations in the four quadrants of Mater; gossip, prayers of malintent, computers of the dark forces, psychotronics, UFOs, aliens, interplanetary and intergalactic black magicians, their rays and forcefields, mind control, mental and emotional manipulation—working in or out of embodiment in space vehicles, from the Twelfth Planet and beyond—sustained by the influence of the moon and magnified by Mars in all quadrants of matter, and all other shades and varieties of anger including sarcasm, belittlement, ingratitude and injustice.

Almighty God, clear the very bedrock, the very depths of the unconscious where we find that substance that is an ancient residue, almost in everyone without exception, of some form of anger against God. Consume the point of the anti-God, the anger, the rage of the forces raging abroad in the world today as murder, mayhem, abortion, terrorism and all manner of abuse of the woman and her seed, the utter contempt for the Mother and her children as the nations are angry at the Divine Mother.

Beloved Jesus the Christ, clear all forces of anti-Christ manifesting as anger, as the strong sense of self-preservation of the carnal mind, the nucleus of the dweller on the threshold and the electronic belt. Transmute all records and

burdens on the heart, all wickedness, hatred, fear and anxiety that prevent the soul's rising to the heart to make attunement with the Christ Self in the Holy of Holies.

Mighty Astrea and Elohim of God, encircle our inner unloving adult that may contain that anger and encircle the transferal of that anger to others, whether spouse, child, family, our own inner child, the Messenger, the Community, "the Church" or its leadership and Keepers of the Flame. Mighty Astrea strip our community of the entities of anger and rage, strip us of any and all intense anger marked by an absence of control, intense feelings of passionate hatred, and a desire for the annihilation of the object of the anger including its manifestation as condemnation.

Beloved Ray-O-Light and your legions, blaze fearlessness flame around us and heal us of all fear that is beneath the anger—fear of our higher calling in God in the etheric quadrant, fear of the future in the mental body, fear of change in the emotional body, and fear of what the Nephilim might do to us in the physical quadrant.

Archangel Michael and your mighty legions of light, protect us at all levels of our being and bind the fallen ones and discarnates on the astral plane who support anger. Bind all manifestations of anger including passivity. Place all anger, including unconscious and subconscious anger, in a blue box so that it can be sealed to no longer cause harm.

Saint Germain, come now with your legions of violet flame angels to drench this anger—cause, effect, record and memory—with violet transmuting flame. Dissolve the anger and resentment of the fallen ones whose time is up and remove all that can be taken in this hour. We call upon the law of forgiveness for all whom we have ever wronged and for all who have ever wronged us. Replace all hardness of heart with a loving concern and a loving regard for all, yet do not allow us to be open to the human creation of anyone.

Be gone, forces of anti-Love! (3x)

We accept it done this hour in full power!

Let God's holy will be done, Amen!
