

**110.29 Lo, I AM the Open Door of Christ-Victory
Which No Man Can Shut!**

Beloved Mighty I AM Presence in the heart of God in the Great Central Sun, let the mighty burst of joy of victory now expand through our hearts. *Lo, I AM* the open door of *victory* which no man can shut!

Lo, I AM the open door of Christ-victory which no man can shut! (7x)

Therefore, we *demand* the God-determination and the will of victory, the love of victory, the illumination of victory, the sustaining power of victory through our representatives in the White House, through all those in our government.

We *demand* that God-victory of Saint Germain through the heart of [George Bush] this day and all who are with him!

Blaze the light through their hearts!

Blaze the surging light of cosmic victory now!

We *demand* the victory!

We *demand* the union!

We *demand* the unity by the power of Micah!

In the holy name of all prophets and avatars, all sons of Light who have gone before us, let this day of light and victory be for the ratification of every other victory of freedom that has ever transpired on earth and beyond. And let us transcend ourselves, O world, and enter into a new cup of light, a new dimension, even as the LORD God does pour the energies of our hearts now into a new crystal cup molded after the design of the great Aquarian water-bearer, our own beloved Saint Germain.

Come forth, O Son of man, and live in our hearts!

In God's name, beloved Saint Germain, we sing to thy victory in America and in all freedom-loving people this day.

[song 554 "God Is My Victory, Victory, Victory!"]

We implore your prayer vigils, then, for the exposing, the absolute exposing by the All-Seeing Eye of God, as well as for our intercession in the binding of those tools of terrorism beset by religious and political fanaticism.
